Letter from J.C. Molony Esq., I.C.S., Collector of Bellary.
No. Ref. C. 6833/21-A-7
Dated 25th January 1922.-

Reference- Assessment (dry) postponement of collection till Fasli

Fasli 1332 - Hospet Taluk Bellary District - report submitted.

In continuation of para 3 of this office C.7981/21-A-7 dated 21-12-21, I submit the following proposalsfor the postponement of collection of dry assessment till Fasli 1332 in 45 villages (Vide statement enclosed) of Hospet Taluk.

2. In my previous report and in the special monthly season reports an endeavour has been made to explain in general the crop prospects of this taluk. The present report is mainly confined to the 45 villages of that taluk that have been seriously affected owing to the wiholding of timely rainfall. These 45 villages comprise the whole of Gadiganur Firka, two villages of Kampli firka and 3 villages of Hospet firka, forming one continuous tract situated in the southern portion of the taluk. The village lands in this tract are mostly red soil and sandy, with a few garden crop lands scattered here and there. The Anthapur valley forming the southern portion of the tract is a hilly country containing forest reserves as well as unreserves with cultivable plots scattered all over the area. These tracts being red soil and gravelly depend entirely on the early south west monsoon for the growth of the crops.

3. I enclose a statement II showing the rainfall recorded in this taluk from April 1921 to date with the normal rainfall for those months. Owing to the failure of the early rains, a large portion of the cultivable area was left waste and the crops on the cultivated area began to fade away. On the advent of rains in October 21 most of the lands left waste were sown with korra and the fading crops revived in most parts. But in some parts of the tract where the soils are poor the rains were excessive; and the excess proved as harmful as the previous defect. The mungari cholam in the remaining portion of the tract seemed to come on alright at first but in the end was a failure owing to the same cause. The Korra crop fared in no way better. The crops grown after the heavy rains in October did not yield any outturn in most parts and the ryots removed the crops for fodder. The standing crops in these tracts are

mostly pulses and castor and these too are unsatisfactory. The statement subjoined shows the crop outturn in the tracts in question during the previous two faslis as well as in the current fasli.

Tract.	Average outturn. F.1329.	F.1330.	F.1331.
Kampli firka (2 villages)	6	4	2
Hospet firka (3 villages)	5	7	4
Gadignur firka.	6	4	2

It will be observed that the tract did not fare well in the previous two years. The yield obtained was hardly sufficient to enable the ryots to pay the Land Revenue and to maintain themselves during these years. The outturn of crops in the current fasli is most disappointing. I therefore recommend that the collection of all the 4 kists including cesses may be postponed till the next fasli in all the said 45 villages.

4. The proposals now made are the result of the Tahsildar's, Divisional Officer's and my predecessor's personal inspections. The revenue village has been taken as a unit and the average outturn has been worked out according to the instructions contained in the note to para 5 of R.S.D.14. It will be observed that the average outturn of each village (Vide statement I) is below 4 annas except in the 3 villages of Hospet firka where it is 4 annas. Last year the collection of dry assessment was postponed till this fasli in the case of all villages where the average outturn was 4 annas and less. The proposals now submitted are on the same basis.

5. The provisional demand and the amount to be postponed are noted against each village in statement I. The total amount to be postponed to the next fasli comes to Rs.18695. This amount excludes the revenue on minor inams, protected lands, and sivoyajama occupations for which no concession is necessary.

6. I have already ordered the postponement of collection of the first two kists (dry assessment) in the above 45 villages and I am issuing orders to postpone collection of the remaining two kists till the end of March pending sanction of the Government. I request that my action may be approved.

7. The Sub Collector Hospet reports that a few more villages of Kampli firka may require similar relief. I am calling for definite information as to what other villages require relief and on receipt of his reply, I shall submit supplemental proposals, if found necessary.

Referen

Submitted to Government.

2. The Collector recommends postponement to fasli 1332 of the collection of the current year's Land Revenue in 45 villages of the Hospet Taluk. The Board observes that the tract as a whole has had a succession of bad years. It accordingly recommends full remission in the case of the 2 villages of Kampli firka and the 26 villages of Gadiganur firka where the estimated outturn was 2 annas and less. In the case of the remaining 14 villages of Gadiganur firka, the Board recommends remission of 50% of the assessment and the postponement of the collection of the balance to fasli 1332. In the case of the 3 villages of the Hospet firka the Board considers that it will be enough to postpone the collection of the assessment to fasli 1332 as the ryots had not a bad harvest last year.

3. The Board supports the Collector's proposal to postpone the collection of cesses to fasli 1332.

4. The revenue on minor inams, protected lands and Sivoijama occupations do not come within the scope of the above proposals.

5. The Collector's action in para 6 of his letter is approved.

Subject - Bellary Dt - Hospet Tk — Suspension & remission of assessment.

From the Board of Rev (Ms) Ref C/14 109/22. Dt 15.2.22 (403 B)

To Under Secy.

The Collector proposes that the collection of the current year's kists & cesses in the 45 villages of the Hospet Taluk which were seriously affected may be postponed to fasli 1322.

para 3, p 3 CF

The estimated outturn of crops in these villages is as follows:—

(i) In 28 villages, the outturn is estimated at 2 as & less

vide statement on pp 5+6 CF.

(ii) In 14 villages, the ~~outturn is~~ estimated outturn is between 2 & 3 as

& (iii) In 3 villages the outturn is between 3 & 4 annas

The Board's recommendation is

- full remission in the case of villages in item (i) above, remission of 50 per cent of assessment in the case of villages in item (ii) & postponement to fasli 1332 of the collection of the remaining 50 per cent in these villages and of the full assessment in the remaining three villages.

para 2, p 4 CF

The Board's recommendation is in accordance with the provision in para 5 (ii) of S.O. 14. It is submitted that the

p 26, Vol I, B.S.O.

recommendation may be approved.

2/. Under para 7(ii) of S.O. 14, suspension & remission of land revenue will ~~not~~ carry with them suspension & remission of cesses & the cesses should be collected when the next instalment of land revenue is realised. The collection of the cesses on account of the ~~rea~~ amounts proposed to be suspended & remitted may be postponed to fasli 1332 as recommended by the Coll & the Board. p 26, Vol I, R&O

A draft order is submitted. It may be sent to L.S.G & Finance for perusal after ~~wise~~ wise.

ORDER. No. 368, dated 27-2-1922.

Mis

The Govt sanction the remission in full of the assessment in the 28 villages of the Hospet taluk where the estimated outturn per crop was two annas & less and of 50 per cent of the assessment in the 14 villages of the same taluk where the outturn was between two & three annas.

The collection of the remaining 50% of the assessment in these 14 villages and of the full assessment in the three villages of the Hospet taluk where the outturn was between three and four annas will be postponed to fasli 1332.

2/. The Govt. also sanction the postponement to fasli 1332 of the collection of cesses on the amounts suspended & remitted, with reference to para 1 above -
